CAREER OBJECTIVE

I am a BE Electronics and Communication Engineering student with a strong interest in exploring emerging technologies and innovative tools. I look forward in learning new concepts and continuously upgrading my technical skills to stay current in the field. I am passionate about problem-solving and applying my knowledge to real-world challenges that drives me to experiment, build, and improve through hands-on experience. I aim to grow as a skilled engineer while contributing meaningfully to every project I undertake.

TECHNICAL KNOWLEDGE

- LANGUAGES KNOWN : JAVA , C
- TOOLS : Ansys hfss , Fusion 360
- Analog electronics
- Digital electronics
- Network theory
- Microcontroller (8086/ 8051, ARM)

INPLANT TRAINING

ROBOMIRACLE TECHNOLOGIES Pvt Ltd, Coimbatore

JUN 2025

- Completed a 15-day internship at **ROBO MIRACLE TECHNOLOGIES** from **9.06.2025 to 26.06.2025**, where I gained practical exposure to real-time technical applications and hands-on project development. The experience helped me strengthen my problem-solving skills, teamwork, and understanding of industry-oriented workflows

EDUCATION

Dr. N.G.P INSTITUTE OF TECHNOLOGY

2023 - 2027

COIMBATORE , TAMILNADU

CGPA : 8.47

AVILA CONVENT MATRIC HIGHER SECONDARY SCHOOL

2021 – 2023

COIMBATORE , TAMILNADU

PERCENTAGE : 88%

PROJECTS

COMPACT HEXAGONAL FRACTAL ANTENNA (2.4GHz) STATUS : DESIGNED AND FABRICATED

JUN 2025 – MAY 2026

- Developed a compact hexagonal fractal antenna using Ansys HFSS with structural modeling in Fusion 360 to support gigahertz frequency operation. Simulation results demonstrated improved bandwidth, optimized gain, and efficient high-frequency performance, highlighting the benefits of the fractal geometry for advanced applications.

AIRPORT AUTHORITY OF INDIA , COIMBATORE STATUS : WAITING FOR APPROVAL

NOV 2025 - 2026

- Proposed AVISHIELD, an intelligent runway safety concept that integrates AI-based vision techniques, real-time monitoring, and intrusion detection to improve operational safety, particularly during dense traffic flow and low-visibility environments.

INVENIRE , COIMBATORE (STATUS : ONGOING PROJECT)

- **Patent Granted – SURFACEGUARD** : Participated in the ideation and technical refinement of SURFACE GUARD, a system designed to improve surface protection, durability, and performance efficiency, including assistance in drafting technical claims.
- **Patent Granted – RELIEVO** : Contributed to the development of RELIEVO, an innovative solution focused on practical engineering applications and sustainability. Actively involved in concept formulation, technical structuring, and preparation of patent documentation.

SMARTOXY WHEELCHAIR (STATUS: COMPLETED)

AUG 2024 – MAY 2025

- Completed SMARTOXY Wheelchair, a smart assistive system integrating sensor-based health monitoring, intelligent mobility control, obstacle detection and emergency alerts to enhance user safety, comfort and independence.

DESIGN OF MICROSTRIP PATCH ANTENNA (2.4THz) STATUS : COMPLETED

Aug 2024 – May 2025

- Designed and evaluated a compact Microstrip Patch Antenna, analyzing key RF parameters through theoretical calculations and design validation to strengthen antenna design fundamentals.

INVERTER (STATUS : COMPLETED)

SEP 2023 – JUN 2024

- Designed and developed a hardware-based inverter for a STEM project, implementing power electronic control and protection circuits while testing performance for efficiency, voltage regulation and reliable operation.

LANGUAGES

- ENGLISH
- TAMIL
- TELUGU

CERTIFICATION

NPTEL :

- Hybrid course on water quality - An approach to people's water data (JAN – APR 2024)
- Computer Vision (2025)
- Analog Electronic Circuit (2025)

Udemy - Analog Electronics(2024)

PAPER PRESENTATION in Technical Symposium at BIT (2025)

TECHNICAL EVENTS :

- Circuit Debugging – Sri Ramakrishna (2025)
- Hatons – PSG College of Arts and Science (2024)

WORKSHOPS :

- KPR Institute of Technology - Cross Platform Mobile Application using Flutter (2025)
- Sri Krishna College of Technology – Circuit Voyage (2024)
- ChipXpert Technologies Private Limited – VLSI Design Flow from RTI to GDS (2025)

ONLINE CERTIFICATES :

- Great Learning, Microsoft, Google Cloud, Hp Life, Mathworks, Bently, UiPath, MongoDB

LEADERSHIP

- **Executive Member, Department Association** – Elected leadership role responsible for organizing academic events and representing student interests.
